ImageWriter: Cable for Apple IIe

=====

Article Created: 15 April 1991

TOPIC -----

I have an ImageWriter, part number A9M0303. Is there a way to connect it to an Apple IIe?

DISCUSSION -----

Yes, you can connect an original ImageWriter to an Apple IIe. The cable that you do this with is A2C0352. In case you cannot get that cable through Finished Goods, the service part number is 590-0037. You will also need a Super Serial Card.
